Full job description

Your new company

An award winning, family owned company, has a fantastic reputation for delivering Main Roads projects throughout QLD. They have recently commenced a large DTMR project on the Sunshine Coast and need a Structures Project Engineer to complement their team. With extensive experience in Civil Roads Construction, this company will provide you the support and career development you need to grow and succeed.

Your new role

Working in a high performing team reporting, you will take responsibility for the structures packages and ensuring deliverables are being met with the required specifications. You will assist with developing the program, solving design issues and liaise with everyone from the Labourer to the Project Director. This is a fantastic opportunity to gain exposure on a huge DTMR project, with various challenges and genuine progression on offer.

What you'll need to succeed

To be considered for this role you must have a Bachelor of Civil Engineering and proven experience as a Project Engineer on QLD DTMR projects, overseeing structures. It is also essential that you're local to the project (accommodation will not be provided) based in or around the Sunshine Coast region.

What you'll get in return

This is a fantastic opportunity to join a leading 2nd tier Civil Contractor, on a landmark project with multiple aspects and a high performing team. Salary will be commensurate with experience while a base salary range between \$110k - \$150k + Super is a good indicator. A fully maintained vehicle will also be provided.

What you need to do now
