Full job description

Your new company

Work with this State Government Agency on the largest infrastructure project Australia has seen. Based in Broken Hill, this agency is focused on providing sustainable, efficient and cost-effective services.

Your new role

As Civil Project Engineer you will be responsible for developing and delivering road, bridge or traffic infrastructure and/or maintenance projects to achieve road safety, asset management and network efficiency objectives.

Some of your responsibilities will include:

- Manage project and delivery process including the delivery of direct control and contract works to ensure projects are developed and delivered to agreed time, cost, quality and scope requirements
- Developing projects briefs and cost estimates, procuring and overseeing service providers, monitoring and reviewing ongoing work programs to make effective use of resources and deliver agreed objectives.
- Prepare contract documents for bridge and road works projects, including technical specifications to engage, administer and deliver contract works and ensure efficient project delivery.

What you'll need to succeed

- Postgraduate Civil Engineering degree
- Proven previous Civil Construction experience
- Valid Construction White card and full driver's license.
- Willing to travel away every second week for 1 night (accommodation will be provided)

What you'll get in return

The chance to work for a government organisation on exciting projects, utilise your skills and experience to make an impact in the role. You will also be rewarded with a healthy hourly rate depending on experience.
