Full job description

Your new company

This leading NSW builder is well established and is enjoying a current strong period of growth having recently secured a number of in-demand projects.

They specialise in delivering a diverse scope of projects across the commercial, industrial, health, education and leisure sectors. In addition to winning multiple projects recently they also have a strong pipeline of work for the coming 12 months and can offer job security and continued career development.

Based in a modern office, this organisation has an excellent reputation for delivering high quality project on time, within budget and supporting local subcontractors. This company is heavily focused on creating and maintaining a well-balanced professional and enjoyable working environment for its staff.

Your new role

An opportunity for an experienced Project Manager has arisen to join this team and play a key role in the company's continued growth. You will have exceptional communication and technical skills with the ability to develop high quality projects within a strict timeframe and financial budget. You will demonstrate strong relationship building skills and have the ability to develop strong rapport with subcontractors. You will also be responsible for ensuring all OH&S standards are met.

What you'll need to succeed

This role and organisation is best suited to an individual looking for a long-term position with a local market leader, who can offer continued career development opportunities and exposure to an impressive list of projects.

- Formal qualifications in Building, Construction, Engineering or a Property/ Project management-based diploma or higher.
- Sound experience within construction Industry- preferably in the commercial, fit out and refurbishment sector
- Working experience in MS project, Excel and Word are essential
- Experience in PowerPoint and Buildlogic (or similar) desirable

- Significant knowledge in the use and management of industry-based contracts and subcontracts.
- Sound knowledge of project techniques, value management and quality assurance, procurement methodologies, project organisation and communication.
- Proven Track record of identifying customer need and providing quality customer service.

What you'll get in return

A highly attractive remuneration package will be offered to the successful candidate based on their experience and qualifications.
